

Miguel Hidalgo

LEAD DRILLER

Miguel has worked at Gregg Drilling for 17-years as both a night crew worker and more recently, in the field as a helper and now lead driller.

Miguel primarily operates the Fraste mud rotary drill rig as well as the Geoprobe 3230 and 3126 rotary rigs.

Experience

- 2006-2019 Gregg Drilling**
 Night crew responsible for cleaning equipment and loading trucks for the next day/project
- 2019-2023 Field Crew**
 Assisting and operating mud rotary drill rigs on current projects within California and nearby states.

Personal life

Miguel is married and has two children and two step-children. He enjoys collecting cars and riding Harley Davidson motorcycles with his wife and family in his spare time. He particularly enjoys visiting new places

"Life isn't about the destination, its about the ride"

Working at Gregg Drilling

My favorite part about working at Gregg is the cultural environment. The company has allowed its employees to grow, learn and better themselves. There is job stability and always work to be done.

One of the perks of working for Gregg has been going to different places for work. I feel like management is there to support us and listen to us when we are having problems or issues on the job sites. They work hard to resolve the problem and give us the necessary tools for us to do our work successfully.

The workforce is multi-cultural which allows us to meet and learn more about each other. I have always had the opportunity to speak up and bring issues to the leadership and know they are trying their best to resolve them.
