

GREGG DRILLING LLC

CME45 SKID-MOUNTED DRILL RIG

Overview

Gregg Drilling operates a CME45 skid mounted drill rig that can be mounted on any number of platforms. Commonly used on smaller barges, the CME45 is both light-weight and highly capable of drilling and pushing Cone Penetration Tests.

Features

- Small footprint ideal for platforms and barges
- Capable of mud rotary or hollow-stem auger drilling
- Equipped with 140lb hydraulic hammer for Standard Penetration Testing (SPT)
- Hydraulic pistons for pushing Cone Penetration Tests (CPT)
- Capable of angled drilling from vertical to horizontal - ideal for ponds, storage tanks and other underground structures
- Ability to drill vertically while on angled slope

Specifications

Length/Width: 18 ft x 6ft

Working height: 18 ft

Push capacity: 13,650 lbs

Weight: 5000lbs

SERVICES:

- Mud rotary drilling & sampling (SPT, shelby tube, California Modified)
- Hollow stem auger drilling & sampling
- Cone Penetration Testing (CPT) and Seismic CPT
- Continuous sample tube system
