

GREGG DRILLING LLC

HOLLOW STEM AUGER DRILLING SERVICES

Experienced and Trusted Auger Drilling

Since 1985 Gregg Drilling has been providing auger drilling services to the environmental and geotechnical site investigation community.

Variable Equipment

- Truck mounted auger drills perfect for metro areas
- Tracked equipment for difficult access and off-road locations
- 2"-8" Monitoring wells
- Boring depths up to 250ft
- Automatic SPT hammers for geotechnical sampling

Specifications

RIG	MAX DRILL DEPTH (ft)	LENGTH	WIDTH	TRAVEL HEIGHT	WORKING HEIGHT
TRUCK MOUNTED					
CME 95	250+	32'	8'6"	12'6"	40'
Marl M12	210	32'	8'6"	12'6"	38'
Mobile B61	200	29'	8'	12'6"	31'
Mobile B53	140	25'	7'3"	11'	24'
TRACK MOUNTED					
Marl M5	150	12'	6'	9'	13'
CME 850	140	21'	8'	9'	27'
Badger	140	13'	4'	6.5'	11'

SERVICES:

- Environmental soil borings
- Monitoring well installations
- Geotechnical borings (including standard geotechnical sampling and continuous CME soil coring)
- Truck and track-mounted (including limited access) rigs
- Combination hollow stem auger/mud rotary rigs
